

This easy to access course reminded me of the endless possibilities of free and traditional skills. More please!

Really enjoyable and relaxed course, with informative presentation and open discussion to help develop the knowledge and practice of participants. Would happily attend future courses.

The course was fantastic. It was great value for money and gave me the confidence and knowledge to start weaving, sewing and threading immediately in my Reception classroom. I have a good overview now of the skills and knowledge progression and the high expectations I can set.

I would love for you to share these ideas with our providers and schools in Doncaster. I have really enjoyed the sessions, lots of ideas and links across the programmes of study. Thanks so much!

Very helpful and great ideas of how to introduce in setting. Thank you!

I have learnt so many new ideas to develop activities with resources we already have. I'm planning to start next week.

Thank you, great ideas for us to get started with our little children. Clear and easy ways to work were shown within our training course, really enjoyed. Thank you.

Thanks for the session. Easy to implement ways for all of us to start our sewing journey! Thank you.

Thank you – very interesting to see how such concepts are being introduced in the EYFS in preparation for later DT skills and activities within school. Will take ideas away to use within our setting.

Very interesting and inspiring, will definitely be trying the weaving with the shoe laces and hessian first, as this is something simple and safe that can be accessed by all ages. Thank you.
