

Cupcakes in the rain

S is one of the younger children. I found her making 'cupcakes' in the mud kitchen on a rainy afternoon. She was doing lots of filling of her pot with a sand mixture, adding water and mixing it in, then adding more sand. 'Not ready,' and 'needs more water,' she was saying. She wasn't put off by the rain. S put her mixture in the microwave, then opened the door saying, 'Done'. After that she was back to more mixing.
